

SENSAPHONE 800

Introducing the FGD800 Sensaphone with Line Seizure and Cottage Sitter Capabilities!

The Sensaphone Dialer 800 monitors your house, cottage, cabin, computer rooms, equipment centers, offices, or any unattended facility to detect power failures, temperature extremes, intrusions, water incursion, sounds such as smoke and burglar alarms, and other conditions of your choice. Also included is a relay output which gives you the ability to remotely control a device, or can be used to remotely turn up the heat to your cottage or cabin.

Other features include:

- Recordable voice – record your own message.
- Calls up to 8 telephone numbers with alarm message.
- Battery back up is 6 "C" cell batteries

Sensaphone 800 at a glance.....

- 8 inputs for monitoring temperature(s), water alarms, motion sensors, door alarms, humidity, etc.
- Calls up to 8 phone numbers when a problem occurs.
- Relay output for turning up the heat at your cabin, or to activate a siren if used as a security system.
- Security code access.
- Temperature and power monitoring to protect refrigerators, equipment, freezers, etc.
- Call your 800 using any telephone, to receive status reports and listen in to on-site sounds.
