

Video Domain Technologies MemoCam® M-C720 Megapixel Resolution

*Not everyone who looks like an angel...
behaves like an angel*

Now you can Examine the Evidence in 20:20 Vision
Clear, Crisp, in Color

MemoCam M-C720
The **Only** All-in-One
Digital **CCTV** System
in **Megapixel Technology**

Would you prefer to examine recorded evidence taken in the standard video quality of 300,000 pixels interlace mode,
OR in 1,230,000 pixels progressive mode?

We know your answer. That is why Video Domain Technologies is offering you the fruits of its Megapixel technology development, which you could only dream about until now: a MemoCam which takes pictures in **1.2 Megapixels**, and you can digitally examine the evidence.

You simply zoom in to enlarge the details...and again...and again... See even the smallest details in full clarity, in color, without losing quality or precision. No special lenses, no special equipment, no extra expense.

M-C720 - the New Generation MemoCam, Video Domain's award winning all-in-one complete CCTV system with Camera, DVR, VMD and PIR sensors, all hidden in a standard PIR container.

MemoCam[®] M-C720

The First of the Next Generation!

In **Color** and **1.2 Megapixels Resolution**

Sharp Images:

- * Clear, precise color images of up to 1280x960 pixels resolution
- * Enlargement of details clear and sharp
- * Wider field of view
- * Advanced CMOS image sensor
- * Progressive scanning mode

Unique Features

- * Integrated new advanced Video Motion Detection (VMD) technology
- * The VMD enables the user to define specific areas for movement detection within the picture frame
- * Smart alarm activation using dual technology (infra-red + VMD)
- * Unique patent: records events on standard digital memory card supporting up to 1GB capacity
- * TV/Video output for external monitor
- * User-defined parameters for frame rates, recording time per event, delay between frames, cyclic recording, weekly scheduling and more
- * Images secured through embedded digital keys
- * Images dated and timed for integrity

Reliable & Easy to Use:

- * Simple and easy installation
- * User-friendly software applications, with intuitive graphic user interface
- * Includes PC/pocket PC based applications enabling:
 - * Playback of recorded images at multiple speeds
 - * Fast search by time or alarm events
 - * Search for images using detailed list or thumbnails
- * Can be connected to control panel to enable synchronized arm/disarm of the unit
- * Operating the device is made easier using the IR remote control, which also contains a panic button
- * Robust device not requiring day-to-day user intervention or maintenance

Advanced Communication Capabilities:

- * Windows export utility automatically exports contents of memory card onto CD as:
 - * Backup
 - * JPEG images
 - * AVI files for playing on any Windows media player
- * Communications capabilities, enabling remote management, offsite visual storage and visual alarm verification
- * RS-485 connection
- * 2 relays output
