

SENSAPHONE Monitoring Sensor

General Accessories

Carbon Monoxide (CO) Sensor

Description

Carbon Monoxide is a highly toxic gas that has no color or odor. The Sensaphone Carbon Monoxide sensor will allow you to monitor CO levels from 0-300 ppm with any Sensaphone that will accept a 4-20mA input signal. The 1" x .5" LCD displays the PPM and menu parameters. The sensor will require a 24VDC power supply to operate (Part # FGD-0053).

Package Contents

- (1) CO sensor
- (1) Installation instructions

Specifications

CO Range:
0-300 PPM

Accuracy:
± 5% PPM

Operating Temp Range:
-4° to 122°F (-20° to 50°C)

Coverage Area:
50' radius

Housing:
Black plastic

Dimensions:
7.2" x 4.9" x 1.7"

Compatibility:
1400, 1800, 2000, 2800,
Express II, SCADA 3000 and
WEB600
